Education

B.S. in Mathematical Engineering

High School

Istanbul Technical University,Istanbul

September, 2021 -January, 2025

Korkmaz Yigit Anatolian High School

September, 2016-January, 2020

Experiences

ITU Entrepreneurship Club, Active Member, sep 2022-Present

- Ensuring end-to-end coordination from participants to instructors for the Gametech Hackathon.
- Establishing communication with companies for office visits, coordinating with participants using tools such as Excel and Docs, and organizing the office tour
- Addressing questions from participants during the Flutter mobile app development training and resolving any arising issues.
- Participation in Entrepreneurship Club and Entrepreneurship Summits to get acquainted with the entrepreneurial world.
- Guidance for companies attending the IGZ summit and directing the entrance and exit of participants to the hall.

Yetkin Gencler, Trainee, Sep 2022-Dec 2022

- Gaining knowledge on various topics ranging from presentation techniques to entrepreneurship and Excel through the 21st-century skills and awareness training program.

Projects

Nutrivision, Apr 2022 - Present

- Based on research and surveys, the fundamental problems in traditional dietary practices of people have been identified. An innovative solution idea addressing these problems received an award and support.
- Through effective task delegation, thorough reporting, and team motivation during the implementation process, the idea garnered attention at ITU Seed

Student, Tubitak, Apr 2019-May 2019

- A design was developed for glasses that use a 3D printer to create three-dimensional representations of objects like spacecraft on blank sheets of paper via a phone, and this design was appreciated by those from TÜBİTAK.

Voluntary Experience

Volunteer, The Duke of Edinburgh's International Award Foundation,Oct 2018- Mar 2019

- This volunteering project, spanning a total of 6 months, comprises 3 months of personal development, 3 months of physical development, and a 6-month period dedicated to social responsibility. During the first 3 months, I enrolled in an English course, followed by regular visits to the gym for the next 3 months. Throughout the 6-month period, I volunteered to provide private math lessons to an unfamiliar child.
- The project also includes a 3-day camp. During the 3-day camp, we collected litter from the surroundings and attempted to estimate the average socioeconomic status of the people attending the camp based on the litter we collected.

Student, Nesin Foundation, Apr 2017 & Apr 2018

- The main goal of this project is to ensure that children have a enjoyable time. As part of this project, besides fun activities like painting pine cones, educational activities such as teaching them to play mangala were also conducted.
